

Model 205MIC

FOR EXPORT ONLY

Spy Wireless Bug Covert RF Audio Listening and Recording Device.

These transmitters are MILITARY / MINISTRY / POLICE / INVESTIGATOR requirement, High Sensitivity & Noise Reduction. Different from Low Range cheap but won't work.

1. Useful & could deploy anywhere without notice. Monitor what's going on before too late.
2. Police Force & Investigator Standard. High Sensitivity with High Spec, worth the value.
3. Sound / Audio received are crystal clear with no interferences. Assure better Quality then most sub-standard in the market.
4. Complete with FM Receiver, Recordable into TF Card as Hard Evidence. Earphones inclusive.
5. Compact / Mini / Light Transmitter, using most advanced Germany transmitting technology, Crystal Audio picked up with the receiver up to 700 meters ~ 1.5KM Open Air, 50 meters ~ 300 meters indoor & Building. Listening through / up to 6 walls still workable.
6. Receiver could be fine tuned if the subject is mobile / moving.
