# Wireless Security Alarm System and its Accessories

Wireless security based on rolling encryption codes  
 Recording of notification message for alerting purpose  
 Setting information in EPROM  
 Support max 255 wireless accessories.  
 Alarm notification up to 8 phone numbers  
 Alarm disarming via phone (No rushing to site)  
 Wireless frequency used : 315/433 MHZ  
 Effective distance : 100m  
 Alarm volume : >110dB

Wireless Window PIR  
 60° Coverage  
 Approx. 5m Sensitivity  
 9V Battery  
 Effective distance 100m

Wireless Window PIR  
 60° Coverage  
 Approx. 5m Sensitivity  
 9V Battery  
 Effective distance 100m

Wireless Magnetic Door Contact  
 12V Battery  
 Effective distance 100m

7AH Rechargeable Battery

Wireless Smoke Detector  
 9V Battery  
 Effective distance 100m

Wireless Siren  
 Effective distance 100m

Wireless Magnetic Contact  
 for roller shutter

Wireless Remote Controller  
 12V Battery  
 Effective distance 100m

Wireless Glass Vibration Sensor  
 Power Adapter 12V  
 Effective distance 100m

## Wireless IP Camera

1/4" CMOS Active - Pixel Digital  
 LAN: RJ-45 10/100 Base -T  
 WLAN : IEEE 802.11b/g  
 Pixels: 320\*240 (30fps)  
 640\*480 (15 fps)  
 Compression: JPEG  
 Web Browser Plug-in

## WIRELESS SECURITY ALARM SYSTEM .

What's hot about it?

- Simple to install (even if DIY)
- No wiring required during installation
- Easy to program via touch of a button
- Remote operation via wireless controller
- Alarm activation in silent or siren mode
- Auto dial alarm notification to up to 8 phone numbers
- Alarm disarming via phone (no rushing down to site)
- System setting secured using 6 million rolling encryption codes
- 1 year warranty & IDA approved (IDA Reg. No. LPREQ-S1329-2004)

System consists of: Wireless main system, wireless motion sensor, wireless door/window contact sensor (x 2 units), wireless remote controller (x 3 units), alarm siren, AC adaptor, telephone cord .

\* Installation assistance available but charges apply.
